RENTALS - WHEEL MOUNTED MOBILE HOMES

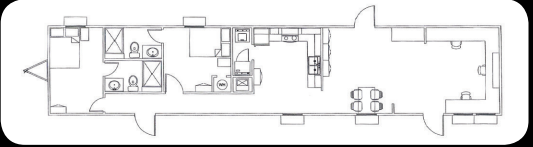

14×74 Deluxe Mobile Home

Our most popular floor plan has a large front office with a half bath in the front of the trailer, and 2 large bedrooms with each having their own full bath in the back. The living room has a large flat screen tv with surround sound. The 14×74' Deluxe Mobile Home comes fully equipped with all furniture, appliance, linens, and utensils.

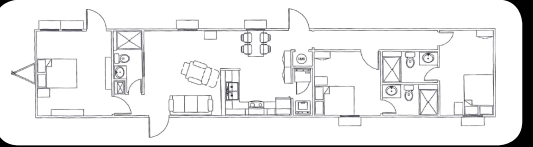

14×74 Double Master Safety Trailer

Our 14×74' Double Master Safety Trailer has 2 Bedrooms and 2 full baths with a full kitchen, washer, dryer, and all appliances. The front portion of this mobile home is a large meeting room and is perfect for safety briefings, daily meetings, and orientations.

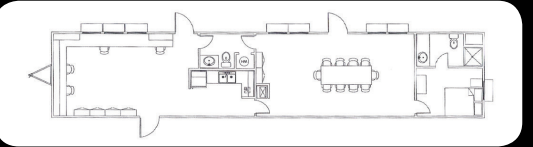

14×76 Deluxe "3x3"

The 14×76' Deluxe "3x3" has 3 bedrooms with each having their own full bathroom. This mobile home can be arranged in many ways to accommodate various numbers of people. The front bedroom is often utilized as a large front office.

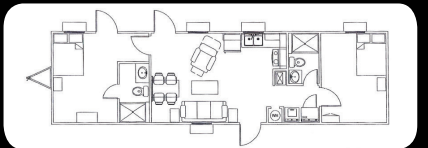

14×74 Office / Conference Room Trailer

The 14×74' Office/Conference Room Trailer is a great floor plan for a specific need for office space that can be separated from the living quarters on location.

14×54 Fully Furnished Mobile Home

The 14×54' Fully Furnished Mobile Home comes with all the same amenities as our larger units. This works perfectly for smaller locations where space is an issue. The front room can either be utilized as a bedroom, office, or mud lab/office.

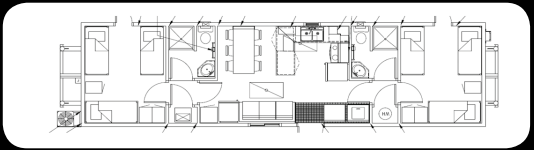

RENTALS - SKID MOUNTED HOUSES

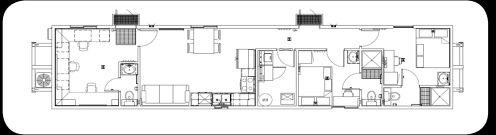

Crew Skid

This 13'4"×60' skid mounted house sleeps 12. Both bedrooms have 3 sets of bunks beds and individual lockers. The crew skid has 2 full bathrooms, a complete kitchen, and a living/dining room area.

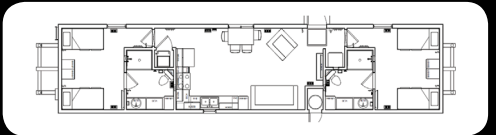

Double Master Company Man Skid

This 13'4"×60' skid mounted house is perfect for the company man on site and has two Queen bedrooms, each with their own full bath. In the front is a large front office with a full wrap around desk and half bath. The spacious kitchen and large living/dining area makes this house extremely livable.

Twin Sleeper Skid

Often used for service personnel on location, this skid is designed to sleep 4 people. Both bedrooms have 2 twin beds with each having access to their own full bath. Dimensions are 13'4"×60'.

Queen Sleeper Skid

This skid has a Queen bedroom on either end of the building, each having their own full bath. Very comfortable house to sleep 2 with a large living/dining area and spacious kitchen. Dimensions are 13'4"×60'.

Double Ender

This 13'4"×60' Skid is basically like having two individual houses in one unit. Each end has a Queen bedroom with a full bath, its own full kitchen, separate work space, and full size couch. This is the perfect floor plan for those that choose to have their own private living space.

WATER SOLUTIONS

THE WATER WAGON

TanMar's Water Wagon is a Mobile Potable Water Production unit capable of treating nearly any fresh water source in order to provide an ample daily supply of on-site potable water for all location needs including drinking water, on demand ice maker, and all general household uses:

- EPA-quality Potable Water on demand at desired pressure
- Includes ice maker, eyewash station, and safety shower
- Up to 6000 TDS well water for potable water production
- 8-Stage filtration process
- Potable water output parameters backed by routine sampling data
- 24/7 remote monitoring of units, with remote control for adjustments as needed

THE RECYCLE WAGON

TanMar's Recycle Wagon is a mobile wastewater treatment unit that is capable of effectively processing up to 3,000 gallons of domestic sewage waste per day. These units are designed with the latest technology to produce a fully treated effluent that can be used for many purposes, while drastically reducing sewer pump out costs on location.

Benefits of the Recycle Wagon:

- Treats up to 3,000 gallon per day
- Eliminates or greatly reduces pump out/transport costs of sewage waste
- High Quality Effluent (NSF/ANSI 40 & 350)
- Processed Effluent can be used for downhole purposes, pumped to reserve pit, sprinkling applications, and dust control.
- 24/7 remote monitoring with remote control for adjustments as needed

COMMUNICATIONS

LTE & VSAT INTERNET

- Phone and Internet Lines
- High Bandwidth
- Low Latency
- Wide Area WiFi

INTERNET CAPABILITIES

- 24 Hour Remote Monitoring
- Advanced QoS
- Optional Web Filtering
- Experience with a wide range of oilfield reporting softwares
- Custom Engineered Solutions
- Computer Rentals

VOICE SOLUTIONS

- Voice / Fax DID's available from anywhere in the Continental US
- Conference Bridges
- Custom Engineered Solutions

INTERCOMS AND PHONE SYSTEMS

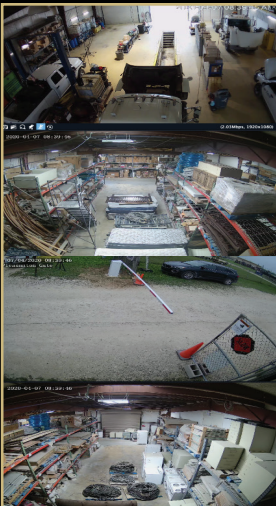

- Indoor desktop or handheld phone system with paging speaker, and answering machine

CELL PHONE BOOSTERS

- Amplifies and repeats the existing cellular signal
- Reduces issues with dropped calls and signal fades
- Improves cellular service range, voice quality, and access

DERRICK AND SURVEILLANCE CAMERAS

- Self-installation made easy with fully adjustable, heavy duty mounting bracket
- Ability to see 360 degrees, straight up, and straight down
- Rugged composition that enables the camera to withstand extreme cold, heat, sun, and precipitation
- Multiple camera options to monitor entire rig or work site through the use of multiple camera placements (Fixed lens cameras or cameras with pan, tilt, zoom)
- Internet streaming capabilities allowing live remote access and camera control
- DVR available to record and capture all video coverage (provides documentation for any and all activities on location) NVR/DVR

TANMAR COMPANIES

TanMar Companies was established in 2007 and continues to pride itself as an industry leader. TanMar strives to exceed our customers' expectations through our dedication to providing the oil and gas industry with the highest quality of equipment and service. We pride ourselves in offering competitive prices while also prioritizing safety and environmental concerns.

Our employees' vision and industry experience allows us to regularly exceed industry standards as we continue to set ourselves apart in a rapidly evolving and competitive business. With operations in Texas, Oklahoma, Louisiana, Pennsylvania and New Mexico, TanMar has quickly grown as one of the largest and most respected service providers in all four of our divisions of expertise: Rentals, Water Transfer, Water Solutions, and Communications. TanMar greatly appreciates the support of our clients and we look forward to building a mutually beneficial business relationship with your company.
